Umang Khandelwal

khandelwalu196@gmail.com | +91-8586919205 | LinkedIn | GitHub

Education

Guru Jambheshwar University of Science and Technology **2022 – 2026**
Bachelor of Technology, Electronics and Communication Engineering *Hisar, Haryana*

Aggarwal Public School **2021 – 2022**
Higher Secondary (12th Grade) *Ballabgarh, Faridabad*

Experience

LLM Trainer, Handshake AI **Jun 2026 – Aug 2026**
Remote

- Contributed to Project Dynamo by authoring complex software engineering benchmark tasks for TerminalBench 2.
- Built end-to-end evaluation tasks including Docker environments, oracle solutions, deterministic verification pipelines, and automated test suites.
- Designed benchmark tasks covering debugging, infrastructure, systems programming, repository workflows, and data processing.

Advanced AI Engineer, Crossing Hurdles **Jul 2026 – Present**
Remote

- Contribute to Project Sentinel Ultra and Terminus 3 by developing advanced software engineering benchmark tasks for evaluating frontier AI coding agents.
- Design Harbor-format tasks with oracle implementations, deterministic verifiers, Docker-based environments, and automated evaluation pipelines.
- Create domain-grounded terminal benchmarking tasks spanning debugging, systems programming, infrastructure workflows, and software engineering while maintaining correctness and reproducibility

Projects

LLM Powered Smart Screen Recorder · *Python, OpenCV, Tesseract OCR, Sentence Transformers, ChromaDB, Google Gemini API*

- Built an intelligent screen recording system using OCR, semantic embeddings and vector search.
- Implemented a Retrieval-Augmented Generation pipeline enabling natural-language querying of historical screen activity.

Stay Finder · *Next.js, TypeScript, PostgreSQL, Prisma*

- Built a full-stack Airbnb-style booking platform with 500+ listings, advanced search filters, and real-time booking logic.
- Designed and queried a PostgreSQL relational database via Prisma ORM to support complex filtering and booking workflows.
- Implemented role-based authentication and secure session management for hosts and guests, achieving a 95+ Lighthouse score.

Ink & Insights · *Next.js, PostgreSQL, Prisma, Redis, Gemini API*

- Built a data-driven blog management platform supporting 500+ concurrent users with 99.2% uptime.
- Integrated the Gemini API with Redis-based rate limiting, monitoring usage to maintain 85% content accuracy and sub-2-second latency.
- Designed relational data models in PostgreSQL via Prisma to support scalable CRUD operations and reporting.

Technical Skills

Languages: Python (Pandas, NumPy), SQL, C++, TypeScript, JavaScript

Web: ReactJS, React Native, Next.js, HTML, CSS, Tailwind CSS

Databases: SQL, PostgreSQL, MongoDB

AI/ML: RAG, LLM Evaluation, AI Benchmarking, Prompt Engineering, Google Gemini API, Sentence Transformers, Semantic Search

Data Visualization: Tableau

Tools: Docker, Git, GitHub, Linux, Postman, Render, Vercel, Cursor AI
